Global EGY Care Services

Global EGY Care is specialized in designing & managing health care schemes for people & organizations (including the employees & their families). Our company is providing a high quality of medical services

Medical Network

A special medical network is expanding in all Egypt (Hospitals, Labs, Radiology, Pharmacies, Clinics & doctors in all specializations,...etc.)
»Ease to get all medical services through a smart online system, which strives searching for medical providers by a simple way or GPS in order to determine the nearest medical providers, offering providers' price list & online reservation (The client would be confirmed for the reservation by SMS, email or going to the medical provider directly with the medical card).

»Our medical schemes are available and suitable for all people at an affordable cost. »Our schemes are including the following:
(Inpatient / Outpatient Clinics, Radiology, Lab, Optical and Dental).
Global

Medical consultancy

Developing Medical Policies, Organizing Healthcare for Corporations, Managed care, Medical Systems solutions and Claims Project Management

Global Express

»Some people have a medical coverage plan which covers some medical services partially financed, so you have to pay the difference in cash payment or does not cover another medical services which should be fully paid in cash in order to have the service. Or going to a doctor or other medical provider does not accept Medicare assignment for any reasons. »Global Express program offers a special rate for the medical services which are not covered by Medicare in order to help people for saving money, including: hearing aids, the prescription drug donut hole, chiropractic services, dentists, long term care and eyeglasses. Call center 24/7 is providing a high quality of customer service. »We have a website including the provider's price list before - after the special rates that save money up to 70%.

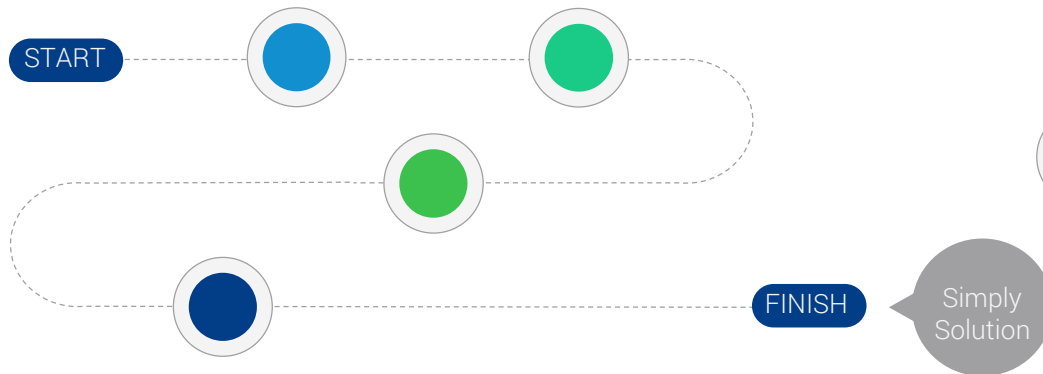

Customer Care

Customer service is very important to our company for success.

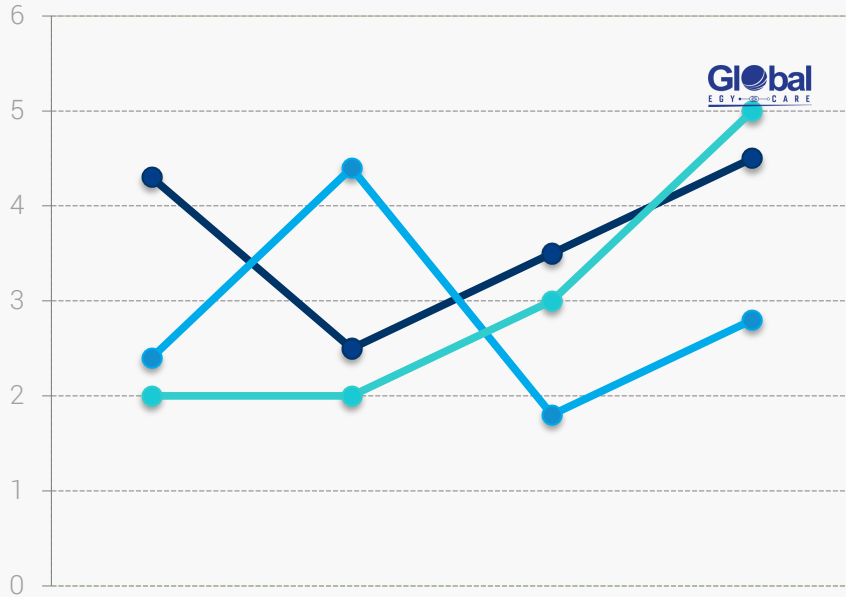

- * The client has the right to get a high quality of services and find someone helping him for any inquiries in a professional way.

Why ?

The healthcare system is in the early stages of enormous change driven by the state of being conscious and a dramatic increase in healthcare companies.

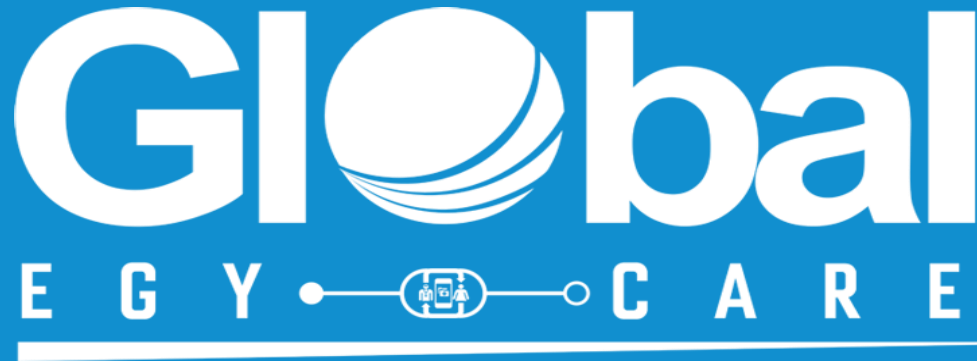

Evidence shows that the system needs to move away from silos of episodic care to more coordinated multidisciplinary care. Smart health care, with smart system and GPS at the website, will be the main driver of this change.

We aim to make Global Egy care a valuable resource for empowering you and your patients to build a better healthcare system management.

Global Egy care has already been shown to improve patient outcomes at the same time making our healthcare system more efficient – and letting you spend more time on the things you do best and less on red tape and paperwork.

We hope this words will keep you informed about Global Egy Care in the context of healthcare reform.

We also hope you will let us know how we can make Global Egy Care a better and more effective resource for you.

We Care, We Promise
